ONTARIO'S PUBLIC SECTOR MARKET

WHO BUYS WHAT IN MINISTRIES AND AGENCIES, MUNICIPALITIES, SCHOOL BOARDS, COLLEGES, UNIVERSITIES, HOSPITALS AND OTHER PUBLIC AGENCIES.

PURCHASING DIRECTORY 1984/85

85-2837/

Ontario
Ministry of
Industry
and
Trade

FROM THE OFFICE OF THE MINISTER

It is my pleasure to introduce the expanded 1984/85 version of the Purchasing Directory, Ontario's Public Sector Market, a publication from the Ontario Ministry of Industry and Trade.

In this update, you will find some new names and location changes, plus an additional listing of another very important group in the public purchasing sector - the municipalities.

All told, there are about 3,000 public purchasers across Ontario, including those in municipalities, universities, hospitals, colleges, school boards, government agencies and crown corporations.

In an effort to assist business and industry, the Ontario government promotes a 'buy Canadian' policy. Many of these public institutions have adopted a similar approach. But, it's also up to you, the suppliers, to prove that Canadian products can compete in price, in quality and in reliability.

We hope you will use this directory to seek out new contacts and opportunities, so you may grow to become more competitive on both a domestic and international scale.

By working together, we can all benefit.

Sincerely,

Frank S Miller

Frank S. Miller
Ontario Minister of
Industry and Trade

HOW TO USE YOUR DIRECTORY

This directory has been prepared to provide a source for identifying and contacting public purchasers in Ontario.

FIRST...

Using the INDEX find the product or service you are marketing. Note the contact numbers listed below it....

C

cable :
contacts 3, 6, 7, 264, 285, 288, 300, 302, 303
calculating machines :
contacts 1, 3-7, 9-17, 19-39, 41, 48, 50, 74, 75, 77, 78, 82-196, 198, 222, 225-263, 265, 280, 281, 297, 300, 302, 313, 314

THEN...

Look at the purchasing representatives listed under those numbers indicated. The name, address, and telephone number of the person responsible for buying your product or service will be found here.

SELLING TO ONTARIO GOVERNMENT MINISTRIES

PURCHASING SYSTEMS AND PROCEDURES

To help you understand the systems and procedures used by the Ontario government ministries in their purchasing, here are the answers to some of the most frequently asked questions about purchasing.

HOW IS PURCHASING ORGANIZED?

The Ontario government has a decentralized purchasing system. Each ministry is responsible for purchasing the goods and services required to support its various programs. The purchasing function may be conducted entirely from a central location within the ministry or from both central and regional purchasing offices.

This directory deals with the purchasing function of each ministry, how it is organized, what supplies, equipment and services it normally purchases and who to contact. All ministry personnel are required to direct their purchase requirements through their purchasing office.

WHO CAN SELL TO THE GOVERNMENT?

The Ontario government wants to ensure that *all* interested suppliers are given a fair opportunity to bid. The selection of suppliers invited to bid is conducted in an objective and equitable manner, in accordance with the Competitive Purchasing Policy.

WHAT IS THE KEY TO BECOMING A SUPPLIER?

The key is bidding. Bids are in response to specific invitations or publicly advertised invitations.

You increase your chance of being able to bid by having the government know you exist. Provide complete information about your firm's capability. Form letters are not as effective as a personalized approach. Therefore, making the right contact and being included on lists of suppliers maintained by each ministry's purchasing office is important to you. In addition, the Ministry of Industry and Trade maintains a central list of "Computer Systems Sources" including management consultants. Invitations to bid on government business are drawn from these lists.

Ministries also solicit bids through publicly advertised tenders. These appear continually in daily and commercial newspapers throughout the province.

IS THERE ANY CENTRALIZED PURCHASING?

Four ministries provide central common services for purchasing a selected group of supplies, equipment and services on behalf of the government. Interested suppliers should refer to the ministry listings in this directory for further information on the following:

—Ministry of Government Services

accommodation (provision and property management) insurance and risk management (provision and purchase)
interior design consulting services (provision and purchase)
office furniture and furnishings (purchase and disposal)
telephone equipment and services (acquisition)
translation (provision and purchase)
mailing equipment and services (provision and purchase)
directories and data base (provision and purchase of equipment)
trucking repair (provision and purchase of parts)
food services (provision and distribution)
official documents (provision and purchase)

—Ministry of Health

drugs and related medical supplies for human use (purchase and distribution)

—Ministry of Transportation and Communications

motor vehicles (purchase and disposal)
space and time in domestic media (purchase)

IS THERE ANY CO-OPERATIVE PURCHASING?

The Ministry of Government Services provides the following central common services that are widely used by ministries:

—Purchasing Services Branch

collective purchasing arrangements (develop and source)

—Computer and Telecommunications Services Division

computer services (provision and purchase)

—Government Stationery Service

office supplies and stationery (purchase and distribution)

—Print Procurement Services

printing, graphic arts services (purchase)

HOW EASY IS IT TO SELL TO THE GOVERNMENT?

Suppliers recently surveyed indicate that it is as easy to sell to the government as it is to sell to private business.

CAN SMALL BUSINESSES COMPETE?

The best way to answer this question is to refer to their past success in selling to the government. Firms with fewer than 100 employees have, over the years, consistently received about 70 percent of all purchase orders issued by ministries. This represents about 60 percent of all purchase order expenditures processed by ministries.

HOW ARE BIDS EVALUATED AND AWARDED?

In accordance with the Competitive Purchasing Policy each ministry is required to develop selection criteria to be used in the evaluation of bids. Subject to the Canadian Preference and the Industrial Development Review Policies, the lowest responsible bidder capable of meeting the specifications is awarded the contract. Suppliers are encouraged to question purchasing officers about any aspect of the solicitation of bids, selection criteria, evaluation and award process.

WHAT IS THE CANADIAN PREFERENCE POLICY AND HOW DOES IT WORK?

The Canadian Preference Policy allows Ontario ministries to give special consideration to products with Canadian content. According to this policy, ten percent of the supplier's stated Canadian content is subtracted from the total bid to arrive at an evaluation bid. The collected evaluation bids are compared and the contract awarded to the supplier with the lowest evaluation bid. Suppliers will be asked to state the Canadian content contained in their bid at the time of bidding. If a Canadian content figure is not supplied, it is assumed to be zero and no adjustment will be made.

WHAT IS THE INDUSTRIAL DEVELOPMENT REVIEW POLICY AND HOW DOES IT WORK?

The Industrial Development Review Policy ensures that goods and services purchased by Ontario ministries result in the maximum economic benefits to Canada. The policy applies to proposed purchases $250,000 or more. However, any proposed purchase less than $250,000 that is identified as significant in terms of its industrial development potential may be subject to review. The review is designed to permit examination of proposed purchases for the purpose of identifying significant industrial development opportunities; eg. export expansion, import replacement, technology transfer, company expansion, job creation, global product mandating. Suppliers will be made aware of proposed purchases subject to a review at the time of tendering.

IS INFORMATION AVAILABLE TO UNSUCCESSFUL BIDDERS?

If bidders are not directly informed, they can secure information regarding the award of bids by contacting the appropriate purchasing office.

IS THERE A TOLL-FREE TELEPHONE NUMBER?

Ontario residents have toll-free telephone access to a considerable number of Ontario government services. Local public telephone directories have blue pages that list the local and/or toll-free numbers of government services.

IS INTEREST PAID ON OVERDUE ACCOUNTS?

Suppliers can submit an invoice for interest on overdue accounts when invoices are not paid within 30 days.

WHERE CAN I GET FURTHER ASSISTANCE?

The Public Procurement Section has been created to assist in maximizing the Canadian content of goods and services purchased by Ontario ministries and other public bodies in Ontario. As one of its roles in achieving this mandate, the office will assist in developing Canadian industries' knowledge of opportunities to do business with public bodies, and will facilitate and encourage Canadian industry to bid on public contracts.

If you have general questions beyond those that can be answered by purchasing officers listed in this directory, please contact:

PURCHASING REPRESENTATIVES

SECTION 1:

ONTARIO GOVERNMENT

MINISTRIES
PROVINCIAL AGENCIES

MINISTRY FUNCTIONS AND PURCHASING CONTACTS

Understanding the functions of the Ontario government ministries may aid you in determining which ministries are likely to have need of your products.

Therefore, each ministry is described here (in alphabetical order). Every area responsible for purchasing within the ministry is also described, with the name, address and telephone number of the purchasing contact.

As well, the total dollar value of supplies and equipment, and services purchased annually by the ministry is included.

MINISTRY OF AGRICULTURE AND FOOD

The Ministry of Agriculture and Food is concerned with the entire spectrum of the food industry, from the farmer who produces food, to the processor, to the consumer. Programs include education, research, marketing, extention services and many others designed both to improve the farmer's ability to produce high-quality food for the people of Ontario and to ensure that food is marketed as widely as possible at home and in export markets.

This ministry purchases about $14 million worth of supplies and equipment and $24 million worth of services each year. Purchasing is both centralized and decentralized.

Accounts and Office Services Branch

The office services section of this branch supplies the ministry with administrative services, and information systems development and processing. Administrative services include purchasing of goods and services, supply management, printing and duplicating services, mail and transportation services, records management and assets management.

The branch provides liaison with the Ministry of Government Services to co-ordinate common services such as telephones, acquisition and design of office accommodation and purchase of commonly used supplies.

Colleges of Agricultural Technology

The five colleges of agricultural technology and the University of Guelph offer diploma education in farm management, agricultural production, agricultural engineering, agricultural laboratory technology, home economics or food service supervision, veterinary technology, livestock production, technology and management and agricultural business management.

The colleges provide training courses for dairy manufacturers, farm equipment mechanics and dairy and swine herdworkers. They also conduct agricultural research for the ministry, including studies on livestock, poultry, field crops, horticultural plants, soils, food and nutrition, economics and marketing.

Horticultural Research Institute

This institute conducts horticultural research (including studies on soils and crops) to increase production and develop new varieties of farm products (for example fruits and vegetables, including mushrooms, and wine). The institute also co-ordinates all horticultural research and service programs supported by the ministry. It serves farmers, growers of ornamental plants, food processors and wine makers, and provides propagating material (cuttings and so on) to growers and nurseries.

Veterinary Services Laboratories

Six laboratories provide assistance to the livestock industry and veterinary practitioners by offering diagnostic, investigative, consultative and extension services. Carcasses and specimens from animals and poultry are submitted by veterinarians and farmers and tests are made to determine cause of disease.

The laboratories administer the Ontario Hatchery Supply Flock Policy, involving monitoring procedures to control disease of poultry and the Fur Farms Act, requiring licences of fur farmers.

MINISTRY OF THE ATTORNEY GENERAL

The Ministry of the Attorney General directs and supervises the administration of justice in Ontario. Its programs include provision of Crown legal service before all courts in Ontario, legal services for the government and its agencies, legislative services to cabinet ministers and members of provincial parliament, courts administration, guardian and trustee services and the protection of the legal rights of Ontario citizens.

This ministry purchases about $8.3 million worth of supplies and equipment and $15.3 million worth of services each year. Purchasing is centralized.

Finance and Services Branch

This branch provides the ministry with administrative services, including purchasing of goods and services, printing and duplicating, mail and transportation services and records management. It provides liaison with the Ministry of Government Services to co-ordinate common services such as telephones and purchase of commonly used supplies.

All Ontario courts located throughout the province purchase through this branch.

MINISTRY OF CITIZENSHIP AND CULTURE

The Ministry of Citizenship and Culture focuses on the citizenship, multiculturalism, art support, heritage conservation, libraries and community information services of the former Ministry of Culture and Recreation. It also supports a number of provincial cultural and historical facilities and institutions.

The Ministry of Citizenship and Culture purchases about $1.9 million worth of supplies and equipment and $1.7 million worth of services each year.

Management Systems and Services Branch

This branch is responsible for office and other central administration services for the ministry and its agencies. Administrative services include purchasing of goods and services, supply management, printing, duplicating, and word processing services, mail and transportation services and assets management.

The branch provides liaison with the Ministry of Government Services to co-ordinate common services such as telephones, acquisition and design of office accommodation and purchase of commonly used supplies.

MINISTRY OF COLLEGES AND UNIVERSITIES

The Ministry of Colleges and Universities administers support funds to 15 provincially assisted universities, Ryerson Polytechnical Institute and the Ontario College of Art. It supports 22 community colleges and industrial training and apprenticeship programs and administers student assistance programs. See the Educational Sector found on page 91 of this directory for listings of individual contacts at Ontario's colleges and universities. Each college and university is responsible for its own purchasing.

Also see the Ministry of Education, which provides administrative support services, including purchasing for the Ministry of Colleges and Universities.

This ministry purchases about $172,000 worth of supplies and equipment and $3.3 million worth of services each year.

MINISTRY OF COMMUNITY AND SOCIAL SERVICES

The Ministry of Community and Social Services provides programs and services for families, including adults and children, senior citizens, those with physical, emotional or educational handicaps,the mentally retarded and those in financial need. It makes available various kinds of assistance to people in the above categories through local governments, private agencies and charitable organizations. The ministry's involvement varies and may include funding, developing programs, setting guidelines, consulting, licensing and supervision. This ministry purchases about $25.9 million worth of supplies and equipment and $21.4 million worth of services each year. Purchasing is both centralized and decentralized.

Administrative Services Branch

This branch supplies the ministry with administrative services. These include purchasing of goods and services, supply management, printing, duplicating and word processing services, mail and transportation services, records and assets management.

The branch provides liaison with the Ministry of Government Services to co-ordinate common services such as telephones, acquisition and design of office accommodation and purchase of commonly used supplies.

MINISTRY OF CONSUMER AND COMMERCIAL RELATIONS

The Ministry of Consumer and Commercial Relations is responsible for programs that affect business and the consumer. These include licensing, registration and inspection of business establishments to promote a high level of ethical business conduct; licensing and inspection of technical and operational situations to ensure safety; and registration of documents related to all aspects of real and personal property ownership. The ministry ensures a reasonable standard of decency in films shown in Ontario and controls the use and availability of beverage alcohol.

This ministry purchases about $3 million worth of supplies and equipment and $9.6 million worth of services each year. Purchasing is both centralized and decentralized.

Finance and Systems Branch - Administrative Services

This branch provides the ministry with the purchasing of goods and services, supply management, printing, duplicating, mail and transportation services, records and forms management and assets management. It provides liaison with the Ministry of Government Services to co-ordinate common services such as telephones, acquisition and design of office accommodation and purchase of commonly used supplies as well as sourcing services for supplier lists.

All Ontario registry offices purchase through this branch.

MINISTRY OF CORRECTIONAL SERVICES

The Ministry of Correctional Services has jurisdiction over all adult offenders sentenced to terms of less than two years. Its services include care in correctional institutions and probation and parole supervision and assistance.

This ministry purchases about $17.5 million worth of supplies and equipment and $5 million worth of services each year. Purchasing is centralized.

Supply and Services Branch

This branch co-ordinates purchasing, inventory control, accommodation leasing and construction, renovations and maintenance in existing ministry offices, correctional institutions and forestry camps. The office services section provides mail, messenger, telephone system and duplicating services, and stationery and printed forms for the ministry.

MINISTRY OF EDUCATION

The Ministry of Education ensures the provision of elementary and secondary school education in Ontario, including correspondence courses and schools for the deaf, the blind and the handicapped.

This ministry purchases about $6.6 million worth of supplies and equipment and $15.3 million worth of services each year. Purchasing is both centralized and decentralized.

Office Services Branch

This branch serves the Ministry of Education and the Ministry of Colleges and Universities, providing administrative services to both ministries. These services include purchasing of goods and services, supply management, printing, duplicating and word processing services, mail and transportation services, records management and assets management.

The branch provides liaison with the Ministry of Government Services to co-ordinate common services such as telephones, acquisition and design of office accommodation and purchase of commonly used supplies.

MINISTRY OF ENERGY

The Ministry of Energy develops and implements a provincial energy policy to ensure an adequate energy supply at a reasonable price and with acceptable impact on the environment. The ministry works closely with Ontario Hydro, the Ontario Energy Board and the Ontario Energy Corporation.

This ministry purchases about $500,000 worth of supplies and equipment and $16 million worth of services each year. Purchasing is centralized.

Purchasing for the Ministry of Energy, the Ontario Energy Board and the Ontario Energy Corporation is provided by the Ministry of Treasury and Economics.

MINISTRY OF THE ENVIRONMENT

The Ministry of the Environment is resonsible for services designed to achieve four major objectives: developement and maintenance of measures intended to restore and enhance Ontario's natural environment, establishment of enviromental safeguards, control of contaminant emissions and management of water and waste.

This ministry purchases about $28 million worth of supplies and equipment and $18.9 million worth of services each year. Purchasing is centralized.

Office of Administrative Services

This office provides the ministry with purchasing of goods and services, supply management, printing, duplicating and word processing services, mail and transportation services and records management. It also provides liason with the Ministry of Government Services to co-ordinate common services such as telephones, acquisition and design of office accomodation and purchase of commonly used supplies.

All ministry services to municipalities, individuals and corporations are delivered through a network of regional, district and sub-offices located throughout Ontario. Suppliers interested in selling to the administrative services office, other laboratories, or water and sewage treatment plants should contact central purchasing in Toronto, and ask for the purchasing officer who buys for one of the following regions:

Don Mills
Kingston
Hamilton
London
Sudbury
Thunder Bay.

Computer and Telecommunications Services Division

This division provides comprehensive telecommunications and computer services to the Ontario government. Computer services include a broad range of computer processing services such as time sharing, batch processing, data base and related support services. The computer support services branch is the planning and central technical resource and co-ordinating arm of the division. There are three computing centres in Metro Toronto: Queen's Park Computing Centre, Leaside Data Centre and Downsview Computing Centre. Telecommunication services, provided through the Telecommunication Services Branch, include telephone, radio (non-broadcast), video, data communications and teleconferencing. The branch also provides and manages the government's consolidated telephone systems and associated switchboards in Toronto, Thunder Bay, London, Ottawa and Sudbury.

Two sections -- the computer support services branch and the telecommunications services branch -- maintain comprehensive supplier lists for hardware, software and related services required by the communications and computer services division. Computer supplies such as tapes, ribbons, stock tabs and so on are purchased by the ministry's Finance and Office Services Branch.

Property Management Division

This branch represents the ministry through the province, through three regions, 11 regional offices and 3 area offices, in providing operational maintenance and repair services to Ontario Government-owned and leased buildings.

District office staff guide and counsel other ministries, contractors, and suppliers of services, developing a closer communications link between them and the program specialists in Queen's Park.

The regional staffs are responsible for the servicing and repair of building structures, heating, ventilating, air-conditioning and electrical systems; the provision of cleaning, security, grounds maintenance (horticultural) and parking; and common administrative services in consolidated government office buildings within their geographic area.

In addition, the division is responsible for the tendering and construction of minor capital projects, as well as alterations and improvements for both leased and government-owned buildings. The district staffs are involved in the preparation of contract documents and drawings for contracted work for government accommodation. Other services include the administration of the ministry's safety program to ensure safe conditions in government buildings and on building construction sites; co-ordination of displays of various ministries at the London, Ottawa and Thunder Bay exhibitions; Regional staffs respond to emergency situations requiring the protection of ministry staffs, the public and government-owned buildings.

The division continues actively in a program of energy conservation within Ontario Government buildings. It is also responsible for the reservation and use of committee rooms in the Macdonald Block at Queen'Park.

MINISTRY OF HEALTH

The Ministry of Health is responsible for ensuring the good health of the Ontario public by administering such programs as health insurance, care for the mentally ill, extended health care, home care services, the regulation of hospitals and nursing homes and drug benefit. The ministry operates psychiatric hospitals and medical laboratories and co-ordinates ambulance services.

This ministry purchases about $32.3 million worth of supplies and equipment and $27.9 million worth of services each year. Purchasing is centralized. See the Health Sector section for the individual contacts of hospitals and public health agencies.

Supply and Services Branch

This branch provides the ministry with administrative services that include purchasing, supply, printing, registry, mail and transportation services, records, forms, assets, accommodation and telecommunications management. In addition, it is responsible for government pharmacy and medical stores; a warehousing and distribution service for drugs, pharmaceuticals and medical supplies; microrecording services, which include health insurance microfilms.

MINISTRY OF LABOUR

The Ministry of Labour aims to advance the well-being of employees and employers by promoting the productive use of labour. Its programs are concerned with rights and responsibilities of the individual worker, rights and obligations of management and labour unions, ensuring health and safety in the workplace and improvement of the status of women in the work force.

This ministry purchases about $5 million worth of supplies and equipment and $8 million worth of services each year. Purchasing is centralized.

Administrative Operation Branch

This branch provides the ministry with purchasing of goods and services, supply management, printing, duplicating and word processing services, mail and transportation services, records management and assets management.

It also provides liaison with the Ministry of Government Services to co-ordinate common services such as telephones, acquisition and design of office accomodation and purchase of commonly used supplies

LEGISLATIVE ASSEMBLY ADMINISTRATIVE OFFICE

The administrative office provides financial, personnel and associated administrative services for each member of provincial parliament and his or her staff, MPP constituency offices and the various offices under the Office of the Leglislative Assembly. In addition, the administrative office is responsible for information and tours service, food and beverage and steward service in the legislative buildings.

Administrative services include the co-ordination of MPP constituency offices, purchase of goods and services, supply management and printing services.

The legislative office purchases about $3 million worth of supplies and equipment and $2 million worth of services each year. Purchasing is centralized.

MINISTRY OF MUNICIPAL AFFAIRS AND HOUSING

The Ministry of Municipal Affairs and Housing is responsible for provincial liason with and financial, policy and management support to local governments; creating provincial policies that encourage sound municipal planning and community development; facilitating the provision and maintenance of adequate housing; and ensuring efficient use of lands acquired for residential, commercial and industrial developement.

This ministry purchases about $2 million worth of supplies and equipment and $18 million worth of services each year. (Total purchases made by the housing authorities for supplies, equipment and services are about $65 million.) Purchasing is both centralized and decentralized.

Management Services Branch

This branch supplies the ministry, the Ontario Housing Corporation, the Ontario Land Corporation and the Ontario Mortgage Corporation with administrative services, including the purchasing of goods and services, supply management, printing, duplicating, mail and transportation services and assets management.

The branch provides liaison with the Ministry of Government Services to co-ordinate common services such as telephones, acquisition and design of office accommodation for the ministry and its crown corporations and purchase of commonly used supplies. It acquires office accommodation and related services for the housing authorities.

MINISTRY OF NATURAL RESOURCES

The Ministry of Natural Resources manages the resources of the province to provide opportunities for outdoor recreation and resource development for the continuous social and economic benefit of the people of Ontario, and to administer, protect and conserve public lands and waters. Its range of programs covers such areas as forests, minerals, hunting, fishing, parks, crown lands and mapping. Resources purchases about $54 million worth of supplies and equipment and $100 million worth of services each year. Purchasing is both centralized and decentralized.

Administrative Services Branch

This branch provides the purchasing of goods and services for the main office, some supply consolidation for the management, printing, duplicating, word processing, mail and telex services, records management and warehousing. It provides liaison with the Ministry of Government Services to co-ordinate common services such as telephones, acquisition and design of facilities and central purchasing of commonly used supplies. It also provides data processing, fleet management, insurance liaison, public service and special services in the hospitality and travel areas.

Field Organization

The Ministry of Natural Resources is organized geographically and functionally so that operational decisions are made as close as possible to the program delivery point. The field organization purchases goods and services locally to support the implementation of the land management, outdoor recreation and resource products programs.

The regional offices are responsible for co-ordinating the resource management activities within the region and providing support services to the districts.

The district offices are the operational level of the ministry, where program delivery actually takes place, and consequently each district office does a large proportion of its own purchasing of goods such as chain saws and services such as tree planting.

The Aviation and Fire Management Centre in Sault Ste. Marie operates the ministry air fleet and purchases aircraft parts, engine parts and equipment for Otters, Turbo Beavers and Beechcraft King Air 200s.

MINISTRY OF NORTHERN AFFAIRS

The Ministry of Northern Affairs represents a commitment by the Ontario government to the residents of northern Ontario. Its aim is to help overcome the obstacles faced by a relatively dispersed population living in a very large geographic area and to provide services and access to the government comparable with those available in the rest of the province.

Through the Ministry of Transportation and Communication this ministry purchases about $700,000 worth of supplies and equipment and $11.2 million worth of services each year. Purchasing is both centralized and decentralized.

Financial and Administrative Services Branch

The financial and administrative services branch provides direct services to the Toronto office and gives direction and support to regional administrative support staff as required. It maintains a liaison with the Ministry of Transportation and Communications, which provides other co-ordinated administrative services. These include purchasing,which is done through the various regional offices.See the Ministry of Transportation and Communications.

MINISTRY OF REVENUE

The Ministry of Revenue administers the major taxing statutes of Ontario (such as the Corporations Tax Act, the Gasoline Tax Act, the Tobacco Tax Act, the Retail Sales Tax Act and the Land Transfer Tax Act). It conducts property assessments to provide the tax base for Ontario municipalities. It directs the Ontario Tax Credit program, the Guaranteed Annual Income System (GAINS), Ontario Property and Sales Tax Grants for Senior Citizens and the Small Business Development Corporations program. It also operates the Province of Ontario Savings Office.

This ministry purchases about $5 million worth of supplies and equipment and about $25 million worth of services each year. Purchasing is centralized.

Administrative and Financial Service Branch

The administration section provides the ministry with purchasing, storage, mailing, security and other central services.

MINISTRY OF THE SOLICITOR GENERAL

The Ministry of the Solicitor General is responsible for law enforcement and public safety in Ontario. Its programs include supervision of the Ontario Provincial Police, the Ontario Police Commission the Ontario Police Arbitration Commission, the Chief Coroner's Office, the Centre of Forensic Sciences, the Office of the Fire Marshal and Forensic Pathology.

This ministry purchases about $30.8 million wort of supplies and equipmen and $13.9 million worth services each year. Purchasing is both centralized and decentralized.

Administrative Services Branch

This branch provides the purchasing of goods and services, supply management, printing, duplicating and word processing services, mail and transportation services, records management and assets management. It provides liaison with the Ministry of Government Services to co-ordinate common services such as telephones, acquisition and design of office accommodation and purchase of commonly used supplies.

Ontario Fire College

This college presents in-residence courses of study for municipal fire department officers in fire protection technology. Together with the fire advisory services of the Ministry of the Solicitor General, it conducts regional fire training for municipal fire fighters in the basic training skills of fire prevention and fire fighting. It also provides curriculum assistance to county mutual fire aid associations in the development of their fire fighter training programs.

MINISTRY OF TOURISM AND RECREATION

The Ministry of Tourism and Recreation encourages and promotes Ontario communities as healthy, progressive places to live and visit. It focuses on developing fuller use by Ontario citizens and tourists of various historical and recreational park systems, sports and community programs.

The Ministry is responsible for tourism, sports, fitness, and recreation in the Province, as well as several tourism and recreation attractions and the Ontario Lottery Corporation.The Ministry of Tourism and Recreation purchases about $4 million worth of supplies and equipment and $24 million worth of services each year. Purchasing is centralized.

Purchasing for this ministry is done by the Ministry of Industry and Trade (see Contact 75).

MINISTRY OF TRANSPORTATION AND COMMUNICATIONS

The Ministry of Transportation and Communications operates Ontario's highway system by performing design, construction and maintenance activities and providing subsidies to municipalities for road construction and maintenance. The ministry is also responsible for driver licensing and all aspects of motor vehicle licensing and safety. It represents the rights of Ontario citizens in the communications field and regulates telephone service under provincial jurisdiction.

This ministry purchases about $101.7 million worth of supplies and equipment and $91.7 million worth of services each year. Purchasing is both centralized and decentralized.

The Ministry of Transportation and Communications does the purchasing for the Ministry of Northern Affairs and buys and sell all motor vehicles for all ministries and agencies of the Ontario Government. Tires and petroleum products are purchased for the majority of the ministries as well.

Supply and Services Branch

This branch provides the ministry with administrative services. These include purchasing of goods and services, supply management, printing, duplicating and word processing services, mail and transportation services, records management and assets management. The branch provides liaison with the Ministry of Government Services to co-ordinate common services such as telephones, aquisition and design of office accomodation and purchase of commonly used supplies.

Operations, Regional, Administrative Services

Regional and district offices provide a variety of services relating to financial, personnel, supply and support service matters to all program staff operating out of regional, district and field offices. These include purchasing of goods and services and appropriate stockkeeping; supply and service tenders; communications (telephone, teletype); and a variety of support services including secretarial, typing, furniture and office equipment ordering and record maintenance.

MINISTRY OF TREASURY AND ECONOMICS

The Ministry of Treasury and Economics recommends fiscal, economic and regional policies within the Ontario government. It deals with taxation and fiscal policy (including development of the provincial budget), economic policy and analysis, regional economic development, provincial borrowing and accounting and statistical information. This ministry purchases about $1.7 million worth of supplies and equipment and $7.8 million worth of services each year (this includes purchases for Management Board and Intergovernmental Affairs). Purchasing is centralized.

Accounts and Office Services Branch

This branch performs the accounting and office support (administrative services) for the Ministry of Treasury and Economics. It also provides accounting and administrative services for the Ontario Economic Council, Niagara Escarpment Commission, Ministry of Intergovernmental Affairs, Ministry of Energy, Ontario Energy Board, Management Board Secretariat, Civil Service Commission and the BILD program.

The administrative services include the purchasing of goods and services, supply management, printing, duplicating and word processing services, mail and transportation services, records management and assets management. The branch provides liaison with the Ministry of Government Services to co-ordinate common services such as telephones, acquisition and design of office accommodation and purchase of commonly used supplies.

PROVINCIAL AGENCY FUNCTIONS AND PURCHASING CONTACTS

Each provincial agency is described here, to help you determine which agencies are likely to have need of your products. The purchasing contacts are listed with each description.

Also included is the total dollar value of supplies, equipment and services purchased annually by the agency.

ADDICTION RESEARCH FOUNDATION

The Addiction Research Foundation operates specialized research, educational, clinical and community service development programs in the field of alcohol and drug addiction. It is also a Collaborating Centre for the World Health Organization of the United Nations.

Inpatient and outpatient treatment for alcohol- and drug-related problems is available through the Clinical Institute, a 63-bed research and teaching hospital affiliated with the University of Toronto.

The Addiction Research Foundation purchases about $6 million worth of supplies, equipment and services each year. Purchasing is centralized.

ART GALLERY OF ONTARIO

The Art Gallery of Ontario cultivates and advances the cause of visual arts in Ontario with programs, lectures and films on the origin, development, appreciation and techniques of the visual arts. It exhibits works of art from its permanent collection and invitational and loan exhibitions in the art gallery and The Grange, a restored historic Toronto house. It circulates exhibitions to Ontario communities and offers an art rental service, an art book shop, a reproduction and jewellery shop, an audiovisual library, an art reference library, art classes, tours restaurants and a speakers' bureau.

The Art Gallery purchases about $200,000 worth of supplies, equipment and services each year. Purchasing is centralized.

HURONIA HISTORICAL PARKS

Historical sites are maintained at Midland (Sainte-Marie among the Hurons) and Penetanguishene (historical naval and military establishments). These attractions are operated to promote an appreciation of the native Indian, French and British heritage of Ontario. Costumed staff demonstrate skills and crafts of the eras. A resource library at Sainte-Marie provides information about the two sites.

Huronia Historical Parks purchases about $320,000 worth of supplies, equipment and services each year. Purchasing is centralized.

THE McMICHAEL CANADIAN COLLECTION

An art gallery in Kleinburg, the McMichael Canadian Collection has an extensive collection of works of Canadian artists.

The McMichael Canadian Collection purchases about $23,000 worth of supplies, equipment and services each year. Purchasing is centralized.

The scope of purchasing is limited. However, goods and services repetitively required to operate the gallery facilities are generally obtained from sources established by the Ministry of Government Services through collective purchasing arrangements. Other requirements unique to the nature of this gallery's collection (for example conservation materials, building hardware, lumber, office and stationery supplies) are not extensive and are usually purchased through local sources.

ONTARIO CANCER TREATMENT FOUNDATION

The Ontario Cancer Treatment and Research Foundation supports programs of diagnosis, treatment and research in cancer. It conducts seven regional cancer treatment centres (associated with hospitals) and 24 consultative and follow-up clinics. The foundation is affiliated with the Ontario Cancer Institute (incorporating the Princess Margaret Hospital), Toronto.

Services and rehabilitation programs funded include speech therapy, prosthetic devices, colostomy patients' program, transportation of patients travelling more than 25 miles and chemotherapeutic drugs for needy Ontario patients. The foundation maintains and operates five lodges where out-of-town ambulatory patients receiving treatment can be accommodated. The statistical section promotes adequate reporting of cancer cases and compiles statistical data.

The foundation supports undergraduate and postgraduate study in oncology for medical, paramedical and scientific personnel. It also supports career scientists and awards research associateships and grants in aid of laboratory and clinical cancer investigation. Purchasing is both centralized and decentralized.

OECA

The Ontario Educational Communications Authority (OECA), a provincial crown corporation, administers educational broadcasting in Ontario. OECA designs and produces TV-based learning systems in English and French designed for in-school and preschool education, adult education and teachers. OECA operates an educational television network, TVOntario.

OECA distributes large parts of its daily schedule by Anik B satellite to 46 experimental ground stations in remote areas; provides a cable package for viewers in areas not reached by TVOntario; distributes video and audio tapes; maintains a library and publishes print materials supporting educational programming.

OECA purchases about $9 million worth of supplies, equipment and services each year. Purchasing is centralized.

ONTARIO HYDRO

Ontario Hydro supplies electrical energy to the people of Ontario indirectly through 324 associated municipal utilities and directly to more than 758,000 rural customers. The Ontario Hydro Electrical Inspection Program provides technical guidance to consultants, contractors, architects, manufacturers and customers on problems concerning installation of electrical equipment and adherence to the Electrical Safety Code Book. Its Rural Electrical Service and Billing Inquiry Program answers inquiries on service policy and practices from rural clientele.

Ontario Hydro operates a Nuclear Communications Centre in Pickering to provide educational information to the public on nuclear power.

Ontario Hydro purchases about $456 million worth of supplies and equipment and $127 million worth of services each year.

Supply Division

This division procures all externally sourced supplies, equipment and services. It also provides long-range procurement planning and resource development to assure sources of supply for Ontario Hydro's future needs.

Buy Canadian Policy

Ontario Hydro will place foreign manufacturers on a bidders' list only if two competitive Canadian bidders cannot be found. Where desirable, major requirements for supplies, equipment and services will be split into two or more contracts, to provide more opportunities for Canadian suppliers bidding against foreign competition.

In awarding a contract to a foreign manufacturer, Ontario Hydro will strive to enhance Canadian manufacturing content, through the manufacturer placing subcontract work in Canada, with Canadian manufacturers, or by establishing an ownership interest in a manufacturing facility in Canada, or by arranging other Canadian work to offset foreign work.

In the comparison of bids, favorable consideration will be given to Canadian suppliers where the evaluation shows that savings in administrative costs offset the higher price of a Canadian bid that is up to 10 percent more than a foreign bid, and up to 15 percent where a foreign bidder receives subsidized financing.

Favorable consideration will also be given to local suppliers over other Canadian suppliers where the evaluation shows that savings in administrative costs offset the higher price of a local bid that is up to 3 percent more than another Canadian bid.

ROYAL ONTARIO MUSEUM

The Royal Ontario Museum, Canada's largest public museum, includes the Sigmund Samuel Canadiana Building and the McLaughlin Planetarium. It is a major research institution, with excellent collections in 20 curatorial departments encompassing disciplines of art, archaeology and the natural sciences.

Several departments provide consultation to government agencies as well as private industry and individuals.

Educational programs include instruction for school classes and lectures, films and courses for adults. Outreach programs such as traveling exhibits, museumobiles and a Speakers' Bureau are available to communities throughout Ontario.

The Royal Ontario Museum has recently undergone an extensive renovation and expansion project. Galleries are being phased in over the next ten years.

The Royal Ontario Museum purchases about $1.5 million worth of supplies, equipment and services each year. Purchasing is centralized.

ST. LAWRENCE PARKS COMMISSION

The St. Lawrence Parks Commission operates and maintains parks and campgrounds from the Ontario-Quebec border to 48 km west of Kingston on Highway 33. It also operates two historical sites, Old Fort Henry at Kingston and Upper Canada Village, 11 km east of Morrisburg. Other facilities include a wildfowl sanctuary, an 18-hole golf course, a paved airstrip, a railroad museum, nature trails and pioneer and Loyalist memorials.

Winter recreation facilities include cross-country skiing, snowmobiling, tobogganing and snowshoeing. A maple sugar bush is located in Crysler Park. Skating and horse drawn sleigh rides are available at Upper Canada Village. A marina and riding stable are operated as concessions on commission lands.

The St. Lawrence Parks Commission purchases about $1.5 million worth of supplies, equipment and services each year. Purchasing is centralized.

SECTION 2:

HEALTH SECTOR

HOSPITALS

HEALTH SECTOR

Ontario Hospitals

The total annual expenditure by Ontario hospitals on goods and services is estimated at more than $2 billion.

Two groups, Hospital Purchasing Program (HPP) and Hospital Purchasing Incorporated (HPI), provide purchasing services for member Ontario hospitals by developing "standing offers" or "best price" proposals that have been arranged with various sources for selected commonly purchased items.

Canadian Hospitals

Canadian Hospital Directory

This directory of hospitals located in Canada is published by the Canadian Hospital Association.

Directory of Long Term Care Centres In Canada

This is a directory of homes for the aged, nursing homes, special care homes and hospitals, and centres for mentally retarded and emotionally disturbed children located in Canada.

These two directories are available for $60.00 each plus tax from:

The "Made in Canada Health Care Products" Directory

A directory of health care products made in Canada has been developed to provide purchasers with comprehensive sourcing information. This directory is in response to the high level of importation in the health care products sector. This level amounts to 75 percent or $1.05 billion of the total $1.4 billion market.

If you are a manufacturer interested in listing your Canadian-made health-care products in the drectory, "Made in Canada Health Care Product, contact:

PURCHASING REPRESENTATIVES

SECTION 3:

EDUCATIONAL SECTOR

SCHOOL BOARDS
COLLEGES
UNIVERSITIES

EDUCATIONAL SECTOR

The total annual expenditure by Ontario's education sector on goods and services is estimated at more than $1 billion. About 40 percent of the expenditures on selected educational supplies and equipment are on imported items, including furniture and fixtures, appliances, laboratory and scientific equipment, nonprinted educational supplies and material and audiovisual equipment.

School Boards

The total annual expenditure by Ontario school boards for goods and services is estimated at $464 million.

The following school boards are members of the Ontario Association of School Business Officials (OASBO).

PURCHASING REPRESENTATIVES

SECTION 4:

OTHER PUBLIC AGENCIES

MUNICIPALITIES
FEDERAL GOVERNMENT
OTHER PROVINCIAL GOVERNMENTS

OTHER PUBLIC AGENCIES

Public Sector Agencies in Canada purchase in excess of $44 billion in goods and services each year. Of this total amount, $29.5 billion is expenditures made by provincial and municipal institutions. This figure breaks down as follows:

$9.5	billion for Ontario
$7	billion for Quebec
$6	billion for Manitoba, Saskatchewan and Alberta
$4	billion for British Columbia
$3	billion for New Brunswick, Newfoundland, Nova Scotia and Prince Edward Island.

Businesses are encouraged to contact the public groups listed in this section to discuss doing business.

ONTARIO MUNICIPAL GOVERNMENTS

The total annual expenditure by Ontario municipalities on goods and services is estimated at close to $3.6 billion.

The imported component of many manufactured goods purchased by municipalities is high, particluarly office products and equipment waterworks and pollution control supplies and equipment, hand tools, medical supplies, janitorial supplies, grounds maintenance equipment, emergency and safety supplies and equipment.

The Ontario Municipalities are listed on the following pages by regions (Metropolitan, Regional and District), counties and districts. Individual purchasing representatives are provided, where known at time of printing.

Federal Government

Supply and Services Canada, a common service agency, buys $6 billion worth of goods and services annually to support the programs of other federal government departments and agencies. The booklet, Selling to Supply and Services Canada, describes the various activities of Supply and Services Canada, provides information about the goods and services purchased, and answers questions most frequently asked by businesses.

The SSC Supply Centre Directory lists the locations and purchases of the goods and services described in Selling to SSC. Purchasing is conducted at various regional supply centres, district and sub-offices located throughout Canada. Both above publications are available free from:
